

Adobe Premiere Pro Training Courses

Sydney, Melbourne, Brisbane and Canberra

Premiere Pro Advanced | Course Overview

COURSE DESCRIPTION

City Desktop's 1 day advanced Premiere course is a follow-on course to the Premiere Pro Essentials course. Best practices, as well as shortcuts, are emphasised. While courses are available using the latest version - CC (Creative Cloud), options for CS6 and CS5 are also available. However, we highly recommend to upgrade to the latest version due to the many powerful new features now available.

WHAT YOU WILL LEARN

This course expands on your basic knowledge of Premiere Pro to bring your skills to the next level. Topics include advanced editing and replacement of clips, nesting, linking and markers. Image stabilization and colour correction effects are covered in detail. All of this is also put together with advanced audio techniques and dynamic linking to programs like After Effects or SpeedGrade to give you high-level industry outcomes.

~~\$540~~ **\$500** (+GST)
1 DAY | 9-4:30PM
