

# Adobe Edge Animate Training Courses Sydney, Melbourne, Brisbane and Canberra

## Edge Animate Advanced | Course Overview

### COURSE DESCRIPTION

Learn to build advanced animations and interactivity for the web that will work on iPhones, iPads, tablets and desktop computers alike. This course doesn't just teach you how to start building basic animations, it takes you further by exploring more complex techniques using symbols and multiple timelines. Learn to add your own custom JavaScript for conditional logic, random triggers and advanced interface controls. The focus of this training is not just creating animations, but creating an interaction with them using mouse actions and simple code snippets.

### WHAT YOU WILL LEARN

- Creating and Editing Symbols
- Applying Code Snippets
- Managing Web Fonts
- Rollovers and Click-Throughs
- Custom JavaScript
- Publishing for Web, App and Widget
- Integrating Edge with a Website

### WHO SHOULD ATTEND

Anyone who is interested in learning how to build interactive animated banners or graphics for the web or mobile devices and who is not afraid of a few advanced options. This course is ideal for those who have completed our 1 day Edge Animate introductory course or who have equivalent basic experience with the software.
