Dreamweaver Essentials | Course Overview

COURSE DESCRIPTION

Build, edit and update responsive websites using Dreamweaver, the leading industry-standard web authoring software. From planning the layout to uploading files to testing for multiple devices and browsers, all the essential steps in an efficient comprehensive workflow will be covered.

This is an introductory course, aimed at beginners, but if you are completely new to web development, **it is strongly recommended that you attend the 1 Day HTML & Web Principles to gain the necessary foundation**.

WHAT YOU WILL LEARN

- Site planning and preparation
- Efficient workflow
- Pages, Text & Images
- Formatting with CSS styles
- Responsive layout with CSS
- Using Dreamweaver templates
- Creating forms with validation

- Links, navigation and interactivity
- Responsive design with Media Queries
- Dealing with multiple screen sizes
- Search engine optimisation tips
- Testing the site
- Publishing to the web

~~$720~~ $630*(+GST)

2 DAYS | 9–4:30PM
